SPORTLID

L200 SPORTLID

The alloy wheel shown is not available in all countries.

Please check with your dealer.

Rugged but lightweight

The Mitsubishi Sportlid is constructed from superb quality twin-sheet bonded engineering plastics for high impact strength, rigidity and durability.

High-level security

Easy push button opening with double side latches ensures optimum locking security.

Weather-tight

Because the L200 Sportlid uses an all-round multipoint seal and a wrap-over design that fully caps over the side rails, the Sportlid is as weather-tight as can be.

Wide-open access to your cargo

The innovative high-lift hinging system enables easy access to your cargo. Side access is not restricted by gas struts - you can reach right into the front of the cargo bed.

Easy on - easy off

Non-drill fitting with concealed clamps.

Quick and easy to remove when you need to transport large items.

Bed liner

The Sportlid can be combined with an under rail bed liner or soft bed liner.

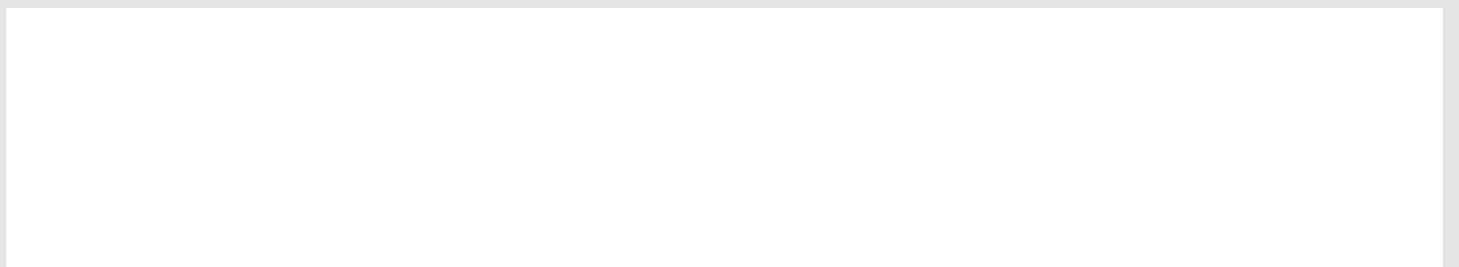

SPORTLID FOR L200 DOUBLE CAB

APPLICATION	PART NUMBER
Unpainted (white)	MZ313985
Pre-painted	M313985xxx

Note: xxx stands for L200 body colour.

Please check with your dealer for information on prices for the Sportlid and bed liners.
