SPORTBACK TOP

L200 SPORTBACK TOP

Sportive design

Each L200 Double Cab deserves a SportBack Top. It exactly follows the unique L200 cabin curves giving your workhorse a head turning appearance.

The hidden lockable rear door handle guarantees continuation of the smooth design and aerodynamics. As finishing touch the SportBack Top is equipped with tinted glass in line with the L200 privacy glass.

Convenience

A sliding front window allows hand reach access to the trunk area, the possibility to ventilate or to load even longer luggage. The rear door window can be slightly opened for further ventilation. For a clear view during loading of your luggage, the interior light switches on when the rear door will be opened.

Durable

The SportBack Top has been finished with stainless steel hitches and fitting materials, not only ensuring no-rust, but also excellent trouble free operation for many years. The SportBack Top has been painted with high quality paint, exactly matching the vehicle's body colour. There's no colour fading from UV light exposure and an innovative water defense system makes the trunk as weather-tight as can be.

Bed liner

The SportBack Top can be combined with an under rail bed liner or soft bed liner.

SPORTBACK TOP FOR L200 DOUBLE CAB
